

***Tell Me Ma (traditional)***

*I think this one made it on to the album because we were looking for a universally recognizable, up-tempo traditional song and Tell Me Ma definitely ticks all of those boxes. Ed and I had a ball doing all the "HEY!!!" tracks. We must've layered them half a dozen times to get that big 'gang' sound.*

*One of our most popular traditional songs that we do live, the crowd always has a great time screaming the "Hey" parts. Plus it's a great song to dance or just jump around to.*
