

The Mermaid (traditional)

This one had been in our set list for years and had actually been moved out of rotation for a long time. When we were kicking ideas around of possible trad songs for the "Pint" album this one came up as one of the tunes we all could agree upon.

GW

The Mermaid is one song that we've been doing since the band first started up. We throw it in once in a while when we feel like doing something a bit different or if it's requested. Another song that's been recorded by a lot of groups!
